

# GoldenEar Technology® Triton One.R

*"...amazing...auspicious...simply spectacular  
...as if you were in Symphony Hall..."*

—Kal Robinson, *Stereophile*

*"Everything that earned Triton Reference  
Stereophile's highest Class A Rating in a  
gorgeous, super sounding, more compact  
and even more affordable package!"*

GoldenEar's Triton One.R is an extraordinary new reference-quality loudspeaker which is basically a smaller, less expensive follow-up to the astounding Triton Reference. The T Ref has been compared with speakers selling for over ten times its surprisingly affordable cost. It has had a remarkable response from both music and home theater enthusiasts as well as press and reviewers from around the world, who have bestowed upon it innumerable Speaker of the Year and Product of the Year awards.

Now Triton One.R is here for your ultimate delight, with countless rave reviews as well as its own collection of prestigious awards, including *Stereophile's* Recommended Component, *Sound & Vision's* Top Pick of the Year, *SoundStage's* Reviewer's Choice, *The Absolute Sound's* Product of the Year and Editors' Choice and *Home Theater Review's* BEST OF AWARD with Triple Five Star rating. Housed within the sleek, gorgeous piano black lacquer cabinet are GoldenEar's Signature HVFR Tweeter, proprietary cast basket bass/midrange drivers, and a 1600-watt built-in powered subwoofer; all perfectly blended with a 56-bit DSP and balanced cross-over. Engineered to deliver state-of-the-art performance for both music and home theater, the One.R delivers a huge three-dimensional soundstage with lifelike natural detail and deep, powerful bass.

Triton One.R \$3299 ea.
